

Abdeladim BENJABOUR

Fullstack Java Developer / Devops

📍 Casablanca, Morocco ✉ abdeladimbenjabour@gmail.com ☎ +212 636302825 in linkedin.com/in/abdeladim-benjabour

Profil

As a fullstack developer , with solid experience in web application development, RESTful APIs, microservices, and the implementation of automation pipelines. Adaptable to agile methodologies, I specialize in backend development and contribute to all phases of the development lifecycle, from design to production.

Experiences

MERCURE IT / EQDOM, JAVA DEVELOPER / DEVOPS

CASABLANCA
Feb 2023 – Present

Missions and tasks :

- Active participation in all stages of the development cycle, from initial design to production deployment.
- Development of new projects and integration of innovative features into existing systems.
- Project management using agile methodologies and the V-model lifecycle.
- Design and creation of APIs, batch processes, and microservices
- Development of APIs for managing credit requests in full online mode.
- Modernization of existing projects, integration of major enhancements, performance improvement.
- Contribution to the design and implementation of the core APIs architecture.
- Setup and automation of CI/CD pipelines using **Jenkins**.
- Reverse proxy and load balancing management with **Nginx**.

Completed projects :

- Implementation of a secure backend for a back-office, ensuring complete tracking of the credit file lifecycle.
- Development and implementation of a secure backend to digitalize the credit request process for customers.
- Automated system for sending SMS to customers through the development of a dedicated batch.
- Design and development of a RESTful interface enabling integration and management of documents in the MinIO DMS.
- Implementation of an automated batch process to transfer all EQDOM documents from the legacy DMS solution to MinIO.
- Integration of the DGSN ADD service to manage user authentication and digital identity.
- Integration of an electronic signature solution.
- Monitoring and centralization of logs via the **ELK Stack** (Elasticsearch, Logstash, Kibana).
- Migration to recent versions of **GITLAB** and **KEYCLOAK** while maintaining configurations and data.

Technical STACK: Java , Spring Boot , Spring frameworks , Microservices , Keycloak , Minio , Gitlab , Jenkins , Docker , ELK , NGINX , ANSIBLE , LINUX , OIDC , SQL , PL/SQL , NoSQL.

- Development of an employee invoice management application.
- Implementation of a back-office for job offer management.
- Design and development of a microservices backend dedicated to property managers, enabling flexible and scalable management.

Technical STACK: Java , Spring Boot , Spring frameworks , Quarkus , Microservices , Keycloak , SQL.

Technologies

Languages : Java, JavaScript, SQL, PLSQL, Bash, YAML

Backend: Java JEE, Spring Boot, Spring frameworks, Quarkus, GRPC, Kafka, Rabbit MQ, Microservices

CI/CD : Jenkins, GitLab CI/CD, SonarQube, Nexus

Containerization / Orchestration : Docker, Podman, Docker Compose, kubernetes

Security : Keycloak, JWT, OAuth2, OpenID Connect

DBMS: Oracle, PostgreSQL, SQL Server, SQL, PL/SQL, MongoDB, NoSQL

Frontend: HTML, CSS, SASS, JavaScript, TypeScript, Angular, React, Tailwind, Bootstrap

Infra / Cloud : Linux , Nginx, Ansible, AWS

Monitoring : ELK Stack (Elasticsearch, Logstash, Kibana)

Tools : Git, Postman, Swagger, MinIO

Education

Professional Bachelor's Degree in "Web and Mobile Development"
ENSET MOHAMMEDIA

2024 – 2025

Specialized Technician in Software Development
ISTA NTIC SIDI MAAROUF

2020 – 2022

Skills

Agility, Communication, Adaptability, Design, Analysis, Teamwork

Languages

French (Fluent), **English** (Intermediate), **Arabic** (Native)
